

CLEAN SWEEP 2008

A Game Plan to Take Back America

**DEMOCRATS AND REPUBLICANS NO LONGER REPRESENT THE PEOPLE
POLITICIANS PROTECT SELF-INTEREST AND SPECIAL INTERESTS**

**AMERICA IS OFF THE RAILS
WE ARE NEAR THE POINT OF NO RETURN**

**IF WE DON'T CHANGE COURSE,
AMERICA WILL BE THE 21ST CENTURY TITANIC**

This is our last stand.
There's very little time left.

If we don't bring ship America around 180 degrees, the game may be over soon. We have 150+ days to the election that will influence the future of our world. The American political system is broken. It is destroying our nation.

Change Before It Is Too Late The Fate of the World Is At Stake

We need your help your and your support. Together we can return America to the dream it once was, not the nightmare it has become.

Hello. In December 2006, just after my son turned 18, I asked him what he was most excited about. He stunned me when he said he was feeling depressed about his future and very worried about what was happening in America.

He asked me why we continue to destroy the environment. He wanted me to explain why we are killing people who did nothing to us. He wondered how he was ever going to afford a house. He was confused about why our government is always trying to scare us and take away our freedoms. He didn't get how men who are fired from big companies receive tens of millions of dollars as thousands of workers get laid off. He could not understand why we value money and oil and material things above human life. He wondered why we are obsessed with winning, celebrity and fame.

He said, "How can we say America is a great country when we spend a trillion dollars to kill people instead of feed and heal them? Our values are so upside down."

My son brought me to tears. I was very sad to hear him express such a fear of the future. He and his friends feel helpless in the face of such overwhelming challenges.

When he finished, he asked me one question that rocked my world:

What are we going to do about it?

This question has haunted me since. I love my son, I love children, I love my family and friends, and I love my country. I have not stopped thinking about what we can do about it.

It came to me as a whisper in my ear. Something can be done, something we as a people, can only do together. The real power is not in authority.

The real power is with people.
We grant authority its power.

We don't serve at the pleasure of the president.

The president serves at the pleasure of the PEOPLE.

When authority abuses its power, it's up to the people to remove the authority.

No authority has power over us except to the extent we give it.

We have given power to an authority that acts with the highest disdain for the people it was elected to serve.

We have trapped ourselves into a cycle of systemic abuse by an authority that wants to lord over us instead of being guided by us.

The solution is clear.

CLEAN SWEEP 2008

Self-interest and special interests, not We the People, control American policy. Special interests control policy by funneling money through the Republican and Democratic central committees. To preserve their self-interest, candidates of both parties are pressured to vote their special interests. Special interests get what they pay for. This way of "doing business" must end.

All CS 08 candidates will take a pledge to “Just Say No” to Lobbyist’s, the RNC or DNC money. Only money from CS 08/RP/DK will fund campaigns.

The CS 08 pledge to America:

America is No Longer for Sale!

VICTORY STRATEGY

Primary focus of CS 2008 will be on congressional and senate races.

Goal is to have a “third” choice in every race, even if we must write them in.

With an “I” in every Senate and House race, we are no longer trapped into choosing the “Evil of Two Lessers” – we are free to choose a third alternative who represent the people, not the parties.

CS approaches Dennis Kucinich and Ron Paul in the House and suggest the following:

In **red** districts, DK and independents pledge their support to “I” candidate.

In **blue** districts, RP and independents pledge their support to “I” candidate.

CS approaches Russ Feingold and others in the Senate disenfranchised by their party and invite them to lead the Independent movement.

With only 10% of the House and Senate - 45 Congressional seats and 10 Senators -we can wrest the majority away from both parties. With neither the D’s nor the R’s in the majority, we force them to negotiate with the I’s.

The way to win the unwinnable game of tug o’ war is to change the game from a one party majority into both parties as minorities.

This forces conversation from the extremes to the middle.

The 10 Senators and 45 House members who have the courage to change the game will yield the power to bring the R’s and D’s together.

These brave souls will forever be etched in history for saving America from itself.

This is my answer to my son’s question, “What are we going to do about it?”

I will do what I can to change the political game through CLEAN SWEEP 2008.

I will challenge myself to step up and play a BIGGER GAME.

I will do what I can to measure my legacy not by how much wealth I create, but how much love I spread.
